15-122: Principles of Imperative Computation, Spring 2022

UNGRADED Test Submission

Due on Gradescope: Now!

Name: *Greg Budhijanto*

Andrew ID: *gbudhija*

Section: *R*

Hello World!

Preparing your Submission   You can prepare your submission with any PDF editor that you like. Here are a few that prior-semester students recommended:

- *PDFescape* or *DocHub*, two web-based PDF editors that work from anywhere.
- *Acrobat Pro*, installed on all non-CS cluster machines, works on many platforms.
- *iAnnotate* works on any iOS and Android mobile device.

There are many more — use whatever works best for you. If you'd rather not edit a PDF, you can always print this homework, write your answers *neatly* by hand, and scan it into a PDF file — *we don't recommend this option, though*.

Caution   Recent versions of Preview on Mac are buggy: annotations get occasionally deleted for no reason. **Do not use Preview as a PDF editor.**

Submitting your Work   Once you are done, submit this assignment on Gradescope. *Always check it was correctly uploaded.* You have unlimited submissions.
